Contents of Volume 17

Number 1

J.L. Millot, J.C. Filiatre, A.C. Gagnon, A. Eckerlin and H. Montagner (France)
Children and their pet dogs: how they communicate 1

P.W. Colgan and J.A. Brown (Canada)
Dynamics of nest defense by male centrarchid fish 17

J. Balthazart, J.M. Libioulle and P. Sante (Belgium)
Stimulatory effects of the noradrenergic neurotoxin DSP4 on sexual behavior in male quail 27

M.P. Chichery and R. Chichery (France)
Manipulative motor activity of the cuttlefish *Sepia officinalis* during prey–capture 45

J.E. Hofmann and L.L. Getz (U.S.A.)
Multiple exposures to adult males and reproductive activation of virgin female *Microtus ochrogaster* 57

R.J. Wallace (U.S.A.)
Latancy measures indicate new place neophobia in *Rattus* species (Letter) 63

M. Isingrini and A. Lenoir (France)
Colony recognition of larvae by young workers of *Cataglyphus cursor* (Hymenoptera, Formicidae) (Letter) 69

Book Reviews
Apes of the world. Their social behaviour, communication, mentality, and ecology, by R.H. Tuttle, reviewed by W.C. McGrew 73

Animal conflict, by F. Huntingford and A. Turner, reviewed by P.F. Brain 75

An introduction to ethology, by P.J.B. Slater, reviewed by U. Falter 76

Kin recognition in animals, edited by D.J.C. Fletcher and C.D. Michener, reviewed by L. van Elsacker 77

Announcement 79

Guide for Authors 81

Number 2

M.C. Appleby and D.G.M. Wood-Gush (U.K.)
Effect of earth as an additional stimulus on the behaviour of confined piglets 83

F. Braza and C. San José (Spain)
An analysis of mother–young behaviour of fallow deer during lactation period 93

M. Trabalon, M. Campan, J.-L. Clément, B. Thon, C. Lange and J. Lefevre (France)
Changes in cuticular hydrocarbon composition in relation to age and sexual behavior in the female *Calliphora vomitoria* (Diptera) 107

J. Bruhwyler, E. Chleide, H. Gueur and M. Mercier (Belgium)
Transformation of a waiting schedule into a temporal regulation schedule (DRRD) by addition of external stimuli in the dog 117

A. Cloarec and D. Joly (France)
Choice of perch by the water stick insect 131

P. Haccou, E. Meelis, E.G. Langeler and H. Dienske (The Netherlands)
Detection of low dose effects of psychopharmaca: application of a semi-Markov model to rhesus monkey behaviour 145

J.C. de Rose, W.J. McIlvane, W.V. Dube and L.T. Stoddard (Brazil, U.S.A.)
Stimulus class formation and functional equivalence in moderately retarded individuals' conditional discrimination 167

Announcement 177

Guide for Authors 179

Number 3

M. Soffié and Y. Lamberty (Belgium)
Scopolamine effects on juvenile conspecific recognition in rats: possible interaction with olfactory sensitivity 181

J.P.C. de Bruin (The Netherlands)
Sex differences in food hoarding behaviour of Long Evans rats 191

L. Ratcliffe and R. Weisman (Canada)
Representation of conspecific song by chickadees: comparisons among embedded 'Fee Bees' 199

R.C. Newberry, D.G.M. Wood-Gush and J.W. Hall (Canada, U.K.)
Playful behaviour of piglets 205

K.E. Heller, B. Houbak and L.L. Jeppesen (Denmark)
Stress during mother–infant separation in ranch mink 217

D.M. Wilkie, L.A. Symons and R.C. Tees (Canada)
Effects of intertrial reinforcers on rats' timing behavior 229

J.M. Hinson and J.J. Higa (U.S.A.)
Massed and spaced stimulus sequences in dimensional discrimination 239
